FISHING REGULATIONS IN SALMONID WATERS OF THE PROVINCE OF SONDRIO - SEASON 2022

This regulation governs fishing in the salmonid waters of the Province of Sondrio. To this exercise are admitted the holders of a valid regional license that have purchased the permits issued by the Unione Pesca Sportiva (UPS) of the Province of Sondrio. Fish protection zones (No-Kill) and those with special regulations are delimited by designated signs and are regulated by specific legislation. Fishing activities are also governed by rules contained in the law of the Lombardy Region 5/12/2008 no. 31 and subsequent amendments, as well as in the Regional Regulation 15/01/2018 no. 2. In the event of a dispute, the most restrictive rules apply.

Art. 1 - FISHING PERMITS FEES AND ACCESS TO THE ZONES

SEASONAL PERMITS	
ADULT SEASONAL PERMIT WITH CATCH Born in 2004 and prior Seasonal limit for fish withholding: no. 200 trout and no. 15 grayling	€ 150,00
WOMEN AND TEENAGERS SEASONAL PERMIT WITH CATCH (Children born between 2005 and 2009) Seasonal catch limit: no. 70 Trout and no. 5 Graylings	€ 70,00
CHILDREN SEASONAL PERMIT WITH CATCH Born between 2010 and 2017 Seasonal catch limit: no. 50 Trout and no. 5 Graylings	€ 30,00
NO-KILL SEASONAL PERMIT for fly fishing, spinning and "camolera" with fish release	€ 120,00 (Women € 60)
The above permissions allow access to all 'NORMAL REGULATION' zones	
SEASONAL PERMIT "PLUS NO-KILL" Fly fishing with fly line, tenkara fly fishing, "valesiana" and spinning where allowed (spinning with only one barbless hook). Valid for all areas with normal and special regulation. Obligation to release fish	€ 250,00 (Women € 125)
SEASONAL TICKET ZONE A (Reserved for seasonal permit holders)	€ 155,00
SEASONAL PASS FOR ZONES B AND C Reserved for seasonal permit holders. Possibility to hold 15 fish, exclusively for zones C – It cannot be repurchased, when the number of retained fish is exhausted, fishing can only be continued in no kill mode.	€ 50,00
The holders of the permit children or teenagers will be able to access the zones of Band A B and C by practicing fishing with equipment allowed in these areas and exclusively in no kill mode.	

DAILY PERMITS	
PERMIT WITH CATCHES (Available from 06/06/2022 - for Livigno Lake and Valle di	€ 25,00

Lei basin from 02/05/2022). Fishing in the 'Normal Regulation' areas maximum 1 grayling		
NO-KILL PERMIT - It can be purchased from the opening Fly fishing with fly line, tenkara fly fishing, 'valesiana' and spinning (single barbless hook) in 'Normal regulation' and B and C zones	€ 20,00	
ZONE "A" PERMIT (It can be purchased from the opening)		
Reserved for seasonal permit holders Allows fishing in zones A, B, C and in the 'Normal Regulation' areas	€ 20,00	
Reserved for members not in possession of the seasonal permit Allows fishing in zones A, B, C and in the 'Normal Regulation' areas	€ 35,00	

WEEK-END SUBSCRIPTION	€ 50,00
<p>SUBSCRIPTION: 3 DAILY PERMITS (available from 10/06/2022)</p> <p>Fishing is allowed for 3 days straight during the weekend (to choose consecutively from the time period between Friday, Saturday, Sunday, Monday at the discretion of the person who buys the permit)</p> <p>THE PERMIT ALLOWS FISHING IN ANY GRANTED WATERCOURSE IN FULL COMPLIANCE WITH THE SPECIFIC RULES OF EACH ZONE EXCEPT FOR ZONE "A", PROHIBITED OR PROTECTED AREAS.</p>	

GENERAL RULES FOR NORMAL AND SPECIAL SALMONID WATERS

Art. 2 - ALLOWED FISHING DAYS

Fishing is permitted starting from 20th March at 6: 00 a.m. Afterwards, it is allowed from one hour before sunrise to one hour after sunset on Mondays, Wednesdays, Saturdays and Sundays and on recognized national holidays, as well as on Tuesdays in the Livigno Lake and the basin of the Val di Lei. Starting from **10th June** fishing is also allowed on Fridays.

Art. 3 - FISHING SEASON

Stated below are the opening and closing dates for the 2022 season.

OPENING	STRETCHES AND STREAMS	CLOSING
20th March	General opening.	16th October
20th March	Start of issue of daily permits: "No-Kill"	16th October and possible extension
1st May	Opening of the basins of Livigno, Val di Lei and Frera	16th October
2nd May	Start issuing daily permits with catches in the "zones with normal regulation" for Livigno basin and Val di Lei	16th October
8th May	Opening of grayling	16th October
5th June	Opening Alpine lakes and reservoirs – Scaloggia stream.	16th October
6th June	Start of issue of daily permits with catches in the "normal regulated area".	16th October
10th June	Fishing is also allowed on	16th October

	Friday. Start issuing the Weekend permits.	
--	--	--

Any extension of the fishing period will be regulated by a UPS decree.

Art. 4 - DAILY CATCHES, MINIMUM MEASURES AND REGISTRATION MODE

For each catch, you must immediately make a registration on the appropriate card to mark fish, or "Special Zones" / "Tourist" card, or "Daily" permit following the rules indicated in the permits with a permanent marker.

In the case of subsequent outings during the day, the fisherman who has deposited the fish caught must, before resuming fishing, draw a horizontal line with an indelible ballpoint pen under the line relating to the last catch marked.

In areas with special regulations, it is mandatory to deposit the fish previously caught in other places.

The maximum number of graylings that may be retained during the season is 15.

It is always forbidden to keep marble trout or its hybrid.

It is mandatory to stop fishing when the daily maximum number of fish is reached (as shown in the table below) or upon reaching a total of 5 kg of fish.

In case of capture of alpine char in the lakes: Palù, Publino, Scarolda, Emet and Nero di Avedo the retained char must be recorded using a single line indicating the place and cancelling with a cross the space indicated with the S (char) to the first specimen retained.

At the end of the fishing activity, on the booklet marks it must be reported, next to the place where the fish has been caught, the total number of char retained as per the example shown in the booklet marks catches.

Char retained in all other areas must be recorded using one line of the booklet for each fish.

ZONES	MINIMUM MEASURES - DAILY CATCHES			
	BROWN TROUT	RAINBOW TROUT	CHAR	GRAYLING
NORMAL REGULATION (BLACK SIGN) Adda from the spring to the border upstream of the "No-Kill" Val Pola	cm 25	cm 25	cm 22	cm 40
	It is allowed to retain 5 fish of which a maximum of 3 brown trout and 2 grayling in the Adda and in the tributaries up to the first bridge or bridle - in Adda it is compulsory to stop fishing when the 3rd head of brown trout is detained.			
NORMAL REGULATION (BLACK SIGN) Adda from the downstream border of the "No-Kill" area Val Pola to the border of the province of Como including the tributaries up to the first weir or bridge	cm 30	cm 25	cm 22	cm 40
	It is allowed to retain 5 fish of which a maximum of 3 brown trout and 2 grayling in the Adda and in the tributaries up to the first bridge or bridle - in Adda it is compulsory to stop fishing when the 3rd head of brown trout is detained.			
NORMAL REGULATION (BLACK SIGN) Mera River: from the Swiss state border (customs of Castesegna) to the confluence of Mezzola Lake including tributaries up to the first bridle or bridge	cm 30	cm 25	cm 22	
	It is allowed to retain 5 fish of which maximum 2 brown trout, it is forbidden to retain grayling - it is compulsory to stop fishing when the 2nd head of brown trout is detained.			
NORMAL REGULATION (BLACK SIGN) Artificial basins, natural lakes, streams and ditches from the first bridge or bridle to rise and ponds.	cm 25	cm 25	cm 22	cm 40
	It is allowed to keep 5 fish.			
ZONE A "FLY FISHING NO-KILL" (BLUE SIGN)	It is forbidden to keep the fish			
ZONE B "FLY FISHING NO-KILL" (BLUE SIGN)	It is forbidden to keep the fish			
ZONE C "ARTIFICIAL" (BLUE SIGN)	cm 40	cm 40	cm 40	cm 40
	It is allowed to keep 2 fish of which maximum 1 grayling. (The grayling must be recorded in the booklet marks fish)			
ZONE C "ARTIFICIAL" (BLUE SIGN) VIOLA LAKE	cm 40	cm 40	cm 22	cm 40
	It is allowed to keep 5 fish of which no more than 1 grayling. Only 2 catches allowed between brown trout, rainbow trout and grayling (maximum 1 grayling). (The grayling must be registered in the fish booklet marks) it is mandatory to stop fishing when the 2nd head of brown trout is caught			
SPECIAL REGULATION (BY DEROGATION FROM THE GENERAL REGULATION)				

FRERA BASINS AND VALFONTANA LAKES	cm 25	cm 25	cm 22	
	It is allowed to keep 10 fish which a maximum of 5 fish between rainbow trout and brown trout			
LIVIGNO BASIN (LAKE)	cm 25	cm 25	cm 22	cm 35
	It is allowed to keep 15 fish in total: 5 fish between rainbow trout, brown and grayling (maximum 2 grayling from the general opening of the alpine lakes)			
PRESTONE ISOLA AND MONTESPLUGA BASINS	cm 25	cm 25	cm 22	cm 35
	It is allowed to keep 5 fish of which maximum 2 grayling			
PALÙ LAKE, PUBLINO, EMET, SCAROLDA, NERO DI AVEDO	cm 25	cm 25		
	It is allowed to keep 5 fish. The Alpine char can be retained without limits of size and number.			
AQUAFRAGGIA LAKE	cm 30	cm 25	cm 22	
	It is allowed to keep 5 fish.			
N.B. FOR ALL OTHER FISH SPECIES NOT INCLUDED IN THIS TABLE, THE REGIONAL LEGISLATION ON MEASURES QUANTITIES AND FISHING PERIODS APPLIES				

Art. 5 - DEADLINE FOR RETURN OF THE BOOKLET MARKS FISH

The return of the catch booklet duly completed as per the instructions contained therein and the census must take place by the end of March of the following year.

The return can be made shortly by hand at our office in via Trieste 8 in Sondrio or by sending the scan of all the pages of the booklet and the relative census via email to info@unionepecasondrio.it.

Art. 6 - FISHING SYSTEMS, REGULATION AND ZONE LOCATION

1) NORMAL REGULATION ZONES (BLACK SIGN)

The technique and tools allowed are exclusively:

- Single rod with or without reel;
- Single barbless hook with natural bait;
- Fly system with a floating end with a maximum of three flies;
- Fly fishing or tenkara or 'valsesiana' with a maximum of three flies
- Spinning with the use of spoons (treble hook are allowed), fake fish and silicon bait;
- 'Camolera' method (from the date of opening of grayling) with a maximum of three maggots in the Rivers Adda and Mera up to the limit of the first bridge or weir of its tributaries
- Only barbless hooks are allowed, except for fishing with a 'camolera' system.

2) ZONE "A" FLY FISHING NO-KILL (BLUE SIGN)

Fishing is allowed to the owners of the Plus no-kill permit, daily permit of zone A, an annual zone A permit and to the owners of the seasonal "children and minors".

- Fishing is allowed with fly line (dry fly, submerged fly, nymph or streamer) with conventional rods for fly fishing.
- All fly line (floating, sinking or sinking tip) with a diameter of 0,55 mm or more and a length of at least 22 metres are allowed.
- The terminal in monofilament or poly leader, including tippet, must have a maximum length equal to twice the length of the barrel used ending with a minimum diameter of 0,12 mm
- Floating or sinking artificial flies can be used. Weighted flies are allowed, provided that the extension of the lead does not exceed the curve of the hook. It is also allowed to plumb with a single and visible ball with a maximum diameter of 4 mm
- If you fish with more than one fly, the heavy ones must comply with the measures and dimensions according to the specific measure.
- It is allowed to fish with a maximum of three flies that have a minimum distance of 50cm between them.
- All bait must be made with a single barbless hook and cannot have more than one hook for artificial
- It is forbidden to add weights or sinkers to the fishing line (split sinkers, drop shot sinkers)
- It is forbidden to use floats (Bobber, New Zeland S. I.) of any shape or size
- It is forbidden to use all bait made of synthetic or natural material moulded, cast or extruded in the shape of the body of an insect, fish or worm (squirmy/gulp)
- It is forbidden to hold unauthorized bait.
- It is mandatory to release all caught fish of any size and species, paying the utmost attention and care during the release operations, handling the fish out of the water as little as possible, always and only with wet hands.
- It is mandatory to have and use fishnets with a network of silicone or rubber, it is strongly recommended to use fishnets with the

right dimensions, in order to sail the caught fish and release them in the shortest time possible. If the hook is clearly visible in the mouth of the fish unhook it and free it. If the hook is not visible, and the fish's mouth is closed, free the fish by cutting the thread closer to the mouthparts.

- It is always forbidden to lay fish on dry rocks, sand or grass.
- In order to avoid an excessive concentration of fishermen, the number of those who can access it for each day of fishing is as follows: - Adda Piateda, 60 fishermen; - Adda Traona, 40 fishermen; Mera river, 40 fishermen. Holders of special permits must register in the appropriate bulletin boards by entering: the seasonal fisherman code or the daily permit number.
- From the general opening to the opening of grayling entry into the water is strictly limited to the knee. Passing through the river is allowed but fishing is prohibited during its conduct. From the opening of the grayling until the general closure it is allowed to enter the water.

Location of Zone "A" area

- 1) River Adda from 50 meters downstream of Boffetto bridge (Piateda) to Navetto bridge (Faedo)
- 2) Adda river from 250 m. downstream of Traona bridge to 150 m. upstream of where the former Enel canal flows into the river
- 3) Mera River from the bridge of Gordona to the bridge of S. Pietro, as well as the ending stretch of Mengasca stream from the mouth of the river to the drain of the Casletto power station

3) ZONE "B" FLY FISHING NO-KILL (BLUE SIGN)

Fishing is allowed to the holders of the seasonal permit Plus No-Kill, to the fishermen with a seasonal permit with catches or without catches in possession of the card reserved for Special Zones B and C (from 50 euros); to the holders of the seasonal "children and minors"; to the holders of the daily permit no-kill, no-kill band A or weekend permits.

The zone A regulation shall apply.

Other allowed fishing methods are tenkara, 'valesiana', and 'moschera'.

Location of Zone "B" area

- 1) Vallaccia stream, from the bridge Da Rez (SS 301) to the confluence of the brook upstream of the 'Tee' (typical wooden mountain huts from Livigno) of Vallaccia
- 2) Turchino Lake (Foscagno Pass)
- 3) Viola stream: from the sewerage system crossing in Isolaccia to the confluence of the Cadangola stream, including the same for a stretch of about 500 m. upstream, up to the second bridge on the bike path
- 4) Adda river from the ford downstream of the confluence of the Massaniga stream up to the first weir 'Corten' located in Val Pola
- 5) River Adda from the A2A dam upstream, up to the bell tower of the Parish Church of Grosio
- 6) Adda River: from the sports field of Tirano up to Foro Boario bridge (the part of the river that passes through Tirano)
- 7) River Adda from the community centre of Tresenda downstream to the locality of Pescè
- 8) Lanterna and Mallero streams (Chiesa in Valmalenco zone) from the wooden bridge located in Vassalini (Lanterna stream) up to 50 m. downstream the first weir located in Castelasch (appropriately signed area)
- 9) Masino stream from the Military bridge (about 1.8 km downstream of Cataeggio) to the corresponding tunnel in the SP Valmasino
- 10) Loga valley: from the springs to the first bridge upstream of the Montespluga basin (from 1st July extension of the Valley area until the entry into the basin)
- 11) Scalcoggia stream - (in Valchiavenna) from 500 m. upstream of the confluence of the T. Emet up to the Val Cava bridge (opening on Sunday, 5th June)
- 12) Mera river: from Guardia di Finanza bridge to the "Consoli Chiavennaschi" bridge
- 13) Liro stream from T. Bodeno / Vizzola confluence, downstream to the hamlet of Lirone;

2) ZONE "C" - ARTIFICIAL (BLUE SIGN)

Fishing is allowed to the holders of the seasonal permit Plus No-Kill, to the fishermen with a seasonal permit with catches or without catches in possession of the card reserved for Special Zones B and C (from 50 euros); to the holders of the seasonal "children and minors"; to the holders of the daily permit no-kill, no-kill zone A or weekend permits.

- Allowed fishing methods: fly fishing with fly line, tenkara, valesiana, moschera and spinning (with specific equipment).
- All bait must have treble hooks reduced to a single hook without a barb.
- When spin fishing, it is absolutely forbidden to weigh or use sinker applied on the line (the same must be an integral part of the bait)
- In these areas it is allowed to use silicone bait mounted on specific spinning equipment.
- Camolera system also using hooks equipped with barb (after the opening of the grayling).
- It is forbidden to keep at the place of fishing bait and gear other than those permitted in Type C zones.
- From the general opening to the opening of grayling entry into the water is strictly limited to the knee. Passing through the river is allowed but fishing is prohibited during its conduct. From the opening of the grayling until the general closure it is allowed to enter the water.
- It is mandatory to use your own fishing net with a silicone net to secure the caught fish. Where release is intended or is required, the fish shall be released with all care and as soon as possible.

- The fish must be waded in the water and remain inside until its eventual release, if the hook is clearly visible in the mouth of the fish it can be unhooked and released. If the hook is not visible and the mouth of the fish is closed it is released by cutting the wire close to the mouthpiece.
- The fish detained must be registered on the special "season pass for special zones B and C" card.
- grayling registration must be carried out on the seasonal fish marks card.
- For each fish retained, it is mandatory to record, in the appropriate box with an indelible ballpoint pen, the date, the area where you fish and draw a cross on the appropriate square of the fish caught.

Location of Zone "C" area

- 1) Spoel River from Pont Bondi to the lake of Livigno (with Prohibition of the 'camolera' method)
- 2) Lake Viola (with Prohibition of the 'camolera' method)
- 3) Adda River in the municipality of Sondalo from S. Rocco bridge to the Bolladore bridge
- 4) River Adda from the mouth of the Poschiavino stream up to the bridge of Stazzona**
- 5) River Adda from the bridge of S. Giacomo di Teglio downstream to the locality Prismata of Nigola
- 6) River Adda from the confluence with Mallerio stream downstream up to Caiolo bridge including the stretch of Mallerio stream from the mouth to rise up to the bridle under Gombaro bridge.**
- 7) River Adda from the border of the forbidden zone downstream of Ardenno crossroad up to 500 m downstream of Morbegno bypass.**
- 8) River Mera from the bridge of S. Pietro to Nave bridge.

6) ZONE "E" - CHILDREN (BLUE SIGN)

Areas reserved for members in possession of the children's seasonal permit

Location of Zone "E" area

- 1) Spoel stream from Borch up to S. Giovanni
- 2) Frodolo stream (Piana del Sant)**
- 3) Roasco stream from the provincial bridge to descend up to 150 meters downstream of the A2A iron bridge**
- 4) Adda river (Fontanino area)**
- 5) Lanterna Stream: from the sports field of Lanzada up to the wooden bridge located in Vassalini
- 6) Where the Bitto stream flows into the river Adda

Art. 7 - PROHIBITED ZONES (RED SIGN)

- Frodolfo stream, upstream of S. Caterina bridge as well as all the waters included in the Stelvio National Park, except for those included for the first time with the D.P.R. April 23, 1977
- Foscagno stream: from via Producena to Cadangola stream confluence.
- Cadangola stream: from via Producena up to 500 meters upstream of the confluence of the Viola stream
- Bolladore ditch, Pradella ditch (Sondalo), Turchi ditch (Le Prese)
- Roasco stream: from the A2A central drain to the confluence of river Adda
- River Adda: downstream of the Sernio barrage to the footbridge
- Belviso stream: from the turn of Baregazze to Frera dam
- Aprica stream: from Madonnina locality to the bridge located in Liscidini
- Valfontana stream: from the weir located in Giassosa to Piana dei Cavalli
- Valfontana stream: from the weir located in Fobbia up to the weir located in Bragnosa
- Adda River: from the mouth of Valfontana stream to the barrage of Baghetto
- Boffetto canal (from Enel central drain of Piateda up to the confluence in the Adda river)
- Mallerio stream: upstream and downstream of the fish ladder (signed area - city section of Sondrio)
- Adda River: until the end of the signed area upstream and downstream of the fish ladder in Ardenno on the Enel river barrage
- Masino stream: from the bridge on the SS 38 in Ardenno until it flows into the Adda river
- Bitto stream: upstream of Promor bridge to San Giovanni bridge
- Cosio stream: from the bridge on the SS 38 downstream to the bridge on the provincial road to Traona
- Mera River where it flows into the lake of Novate Mezzola, coinciding with the Natural Reserve Pian di Spagna and Mezzola Lake
- Boggia stream downstream of the puddle of the Gordona hydroelectric power plant drain to the current border of the no-kill on the Mera river
- Mengasca stream, upstream of the drainage of the Casletto power station up to the first weir
- Stream Acqua Fraggia: from the bridge on the Maloia State Road n. 37 downstream until it flows into the river Mera
- Meretta no. 5: from S. Cassiano treatment plant downstream to the bridge in the Somaggia railway station

- Torrent Liro: from 100 m. above the Snam bridge until the bridge to Val Febbraro
- Liro stream: from Portarezza bridge to Starleggia bridge (camping area)
- Val Loga stream: from the first bridge to the confluence with the Montespluga river (until 30th June)

Art. 8 - PROHIBITIONS

It is strictly forbidden:

- fishing in fish passageways, from bridges, dams, discharges of power plants and in fenced areas;
- leaving fishing gear in active phase unattended;
- to fish in place of other fishermen;
- the use of the echo sounding;
- the use of a fishing net except as an auxiliary means for the recovery of fish already hooked;
- ballasting the end of the fly fishing line;
- replace fish kept alive by fish caught later;
- any type of fishing groundbait;
- the use and storing of fish eggs and flesh-meat fly larvae;
- fishing with live or dead natural fish with the exception of Alpine lakes where 'bamalo' (a specific local fish) is present;
- the use of any type of 'pasta' (specific artificial bait);
- to give or receive hooked or caught fish from third parties at the place of fishing;
- any kind of boat fishing and its use to reach otherwise inaccessible places;
- underwater fishing; tear-away fishing; fishing through openings in ice;
- keeping grayling or trout in areas where catching of these species is prohibited;
- keeping live fish caught during the previous days at the place of fishing;
- to carry out fishing competitions without authorisation from the UPS or in violation of the specific competition regulation. The introduction of fish without a UPS authorisation is also prohibited. During fishing competitions, participants are allowed to use hooks with barbs. From the end of any fishing competition, for a period of one hour, it is always forbidden to fish in the stretch of the competition field. It is mandatory for the organizing company of the event to remove, at the end of the competition, the signs used during the competition and other materials of any kind.

In addition:

- during the grayling breeding period, it is forbidden to catch a fish in a clear state of reproduction and it is forbidden to enter the water in the areas affected by visible reproduction;
- the time it takes to forage and release the fish and the way it is handled is critical to its survival.
- in the event of the capture of sub-measured specimens that are released, it is mandatory, where the state of the places allows it, to release the fish without removing them from the water, or in any case, minimize the time out of the water after having properly wet the hands so as not to cause excessive damage to the same. If the fish cannot be released without damage it is made an obligation to cut the end part of the line. For the performance of fish release operations, it is allowed to enter the water in the immediate vicinity of the shore. It is always forbidden to lay fish on dry rocks, sand or grass.
- It is forbidden to leave waste of any kind in places of fishing and nearby, including cigarette ends.

Art. 9 - WATER ENTERING LIMITS

In the Adda and Mera rivers, entry into the water is allowed strictly up to the knee. After the opening of the grayling, entry into the water is permitted up to the height of the thigh boot.

Wading is permitted with a prohibition on fishing during the same period.

Entry into water into special zones shall be regulated in Article 6 of this regulation.

Art, 10 - EXCEPTIONS, DEROGATIONS AND PROHIBITIONS TO THE GENERAL RULES

• Lake of Livigno The fishermen in possession of the seasonal permit, daily with catches, the weekend subscription will have to compulsorily retain all the fish hooked by the measure until the permitted quota is reached, it is therefore forbidden to retain live fish in nets or other. Each fish retained (including char) must be recorded individually at the time of capture using the appropriate spaces in the fish mark booklet.

It is allowed to fish by boat with the same methods provided in the regulation in salmonid waters of the province of Sondrio 2022 in the southern portion of the lake from the point of entry of the Spoel River until delimitation for the entire width of the lake, consisting of a top interspersed by a sequence of buoys clearly visible to the boats.

Boat fishing is allowed from a minimum distance of 50 meters from the shore. From the opening of the fishing season until the opening of the Livigno lake fishing in the river Spoel and its tributaries, is allowed up to the confluence of the Rio Torto If the water level should exceed that point, the fishing is allowed up to the limit of the maximum invaded.

Fishing in the Vallaccia stream is also permitted. It is allowed to fish from the boat with the technique "alla sonda" with the use of a maximum of three artificial bait without a barb

• Basin of Madesimo, Fusino, Campo Tartano, Panigai, Moledana, Valle dei Ratti, Isola, Prestone, Villa di Chiavenna, Lovero, Ganda, Ardenno: fishing times are valid from the third Sunday of March to the third Sunday of October.

- It is allowed to fish "sanguinerola" (as known as "bamalo", a specific local fish) on a single or **treble hook** without barb in the alpine lakes and artificial basins where the fish itself is present. Their removal (living or dead) from the place of fishing shall be prohibited.
- Those who intend to practice with the use of a bow outside the permitted fishing days must contact our offices in advance to communicate place and times, the exercise must take place on a dry foot and the fisherman must not be in possession of hooks or fishing lines suitable for catching fish.

Art. 11 - PROHIBITION AND RELATED ZONES

It is forbidden to keep the grayling in the catchment area of the Venina valley including the Mera river, **in the river Adda from Baghetto crossroads downstream to the beginning of the Piateda no kill area** and in the catchment area of the Spoel river, excluding the Livigno reservoir in the period allowed by the regulation.

Art. 12 - SANCTIONS

In case of violation of regional fishing laws and those established by these Regulations or by the regulations for fishing in special regulatory areas, the offender will be punished with the administrative sanctions provided for by the regulations in force.

It will proceed to the seizure of the tools, means and materials that have been used to commit the infringement in the cases provided for by the Law as well as the confiscation of fish species and aquatic fauna fished and in any case caught in violation of the above-mentioned laws will be carried out.

The Concessionaire, in any case of a violation that has led to the unauthorized capture or killing of fish material or, in any case, other damages ascertained, will provide to request compensation for such damages from the person responsible, which will also include the costs of the re-introduction of fish and any environmental restoration.

In addition, in any case of violation of regional rules and these Regulations, will be imposed on the offender, by order of the Disciplinary Commission of the UPS of the Province of Sondrio established for this purpose, the foreclosure of fishing in the entire reserve of valuable waters of the Province of Sondrio from a minimum of 15 days of actual fishing to a maximum of 200. In case of extremely serious infringements, the fisherman may be suspended for even more than 200 days. During the period of suspension, it is forbidden to fish with any other permit that, if purchased, will be considered null and void and not refunded.

In the event of grayling being caught during the period of prohibition or "camolera" fishing during the period or place in which such method is not permitted, fishing for these species will be excluded for the remainder of the current year, with a possible extension of the suspension period for the following year.

To this end, in any case of disputed infringement against a fisherman who is a member of the Fishing Union, the fisherman will have to hand over to the Police Officer of the Surveillance Body the fishing licence book, which will be suspended for the entire period decided by the UPS Disciplinary Commission and indicated in the notification.

Art. 13 - DUTY OF COOPERATION

- Should the fisherman catch fish that show signs of probable disease, he is obliged, as far as possible, to send them to the headquarters of the Sport Fishing Union of the Province of Sondrio for the necessary investigations.
- As a result of the affiliation, all fishermen are obliged to behave correctly towards the Judicial Police Officers of the Surveillance Corps, allowing them to verify the documents and any fish caught, as well as to check the fishing line, every basket, pockets, vehicles and tents where fish, bait or fishing gear could be stored. Each member has the duty to report to the P.G. Agents or directly to the Sport Fishing Union or to the Fishing Office of the Provincial Administration any violation ascertained or cases of evident pollution of the waters of the Reserve; anyone is obliged to maintain the utmost respect for the environment, refraining in particular from abandoning waste on the banks or throwing objects of any kind into the waters.

Art. 14 - OTHERS

The following are excluded from this regulation: Lake Mezzola, Pozzo di Riva and the canal that connects them.

- Unione Pesca Sportiva reserves the right to prohibit fishing at any time, for technical or ichthyological reasons in any waterway or lake it deems necessary, as well as for competitive reasons in compliance with the special regulations for competitions.
- Unione Pesca Sportiva also reserves the right to provide, during the course of the year on an experimental basis, in compliance with the regulations in force, special fishing regimes on limited stretches of watercourses or basins, subject to adequate information to members.
- The UPS Management Committee is delegated to postpone the date of closure of the fishing season, with the relative procedures in compliance with the regulations in force; it is also delegated during the year, for proven management and technical quota situations, to adopt appropriate amendments to the regulations.
- This regulation shall remain valid until the next regulation is issued.
